

Environmental Policy

Leeds Test Objects Ltd design, manufacture and supply quality control instruments for imaging apparatus used in medical and NDT applications

The management team is committed to the continual improvement of our efforts to limit our effect on the environment, beyond the scope of environmental legislation by;

- Annual measurement of performance against environmental objectives (scrap costs)
- Education of new employees (environmental training at induction, policy display)
- Use of company vehicles with low carbon emissions (e.g. Bluemotion Technology)
- Minimising waste (production, office and kitchen materials)
- Recycling of waste (production, office and kitchen materials)
- Efficient use of water and energy
- Minimal use of harmful materials (e.g. replacement of Pb with W where possible)
- Minimal use of harmful solvents (restricted to use of IPA)
- Minimal noise pollution (Silencer fitted to extraction system)
- Re-use of packaging materials (packaging given to other companies in the group)
